

# Planning & Zoning Department

## Septic Capacity Form

Certain Teton County applications require confirming the septic capacity of the system. Before any work begins, complete and submit application packet with associated permit fee. Incomplete applications will delay processing. Please contact Planning Department with questions or needed assistance at 208-354-2593.

Capacity Permit Fee: \_\_\_\_\_  
 (Per EIPH fee schedule)  
 Receipt #: \_\_\_\_\_  
 Date Paid: \_\_\_\_\_  
 (EIPH use)

Requirement for Submittal: Ensure all fields are complete. *Incomplete applications will not be put on hold.* Incomplete and partial applications will be returned to applicant. Fees for septic reviews will be charged by Eastern Idaho Public Health (EIPH). Applicant is responsible for submitting this form to EIPH for review.

Phone #: \_\_\_\_\_

Subdivision: \_\_\_\_\_ Lot \_\_\_ Blk \_\_\_

### Septic System Capacity (Official Use Only)

Individual Septic Permit #: \_\_\_\_\_ Septic Tank Size: \_\_\_\_\_ Drainfield Size: \_\_\_\_\_ SqFt

Large Oil Absorption System: \_\_\_\_\_

Central/LSAS System Authority Reviewer: \_\_\_\_\_ (Review Attached)

System approved for rental lodging: **YES** (capacity noted below) **NO** (reasons for denial attached)

Total System Capacity (Number of persons/day/per property unit): \_\_\_\_\_

Formula used to determine septic tank capacity:  $(\text{Septic tank capacity} / (*63 \text{ gallons/person/day}) / (2))$ . Note: Septic tank capacity is required to be 2X the daily flow (IDAPA 58.01.03.007.07). Drainfield capacity is based on \*63 gallons/person/day and then calculated as prescribed by IDAPA 58.01.03.008 and the Idaho Department of Environmental Quality Technical Guidance Manual for Individual and Subsurface Sewage Disposal Systems. Total System Capacity is based on the most restrictive system component. **\*63 gallons/person/day as determined by Teton County.**

Other requirements of the building code and septic system as mandated by the State of Idaho and Teton County, ID may also affect the maximum occupancy of the structure. This report is submitted, as required by Teton County, ID and in compliance with Teton County LDC.

I, \_\_\_\_\_, being an Environmental Health Specialist (EHS) with Eastern Idaho Public Health, verify that capacity of the septic system is as stated above.
